1. General

In order to ensure high quality of Conference Proceedings, the authors are kindly asked to submit the full paper of **8 to 10 pages in English** in pdf or doc formats. Please, follow this template to maintain the same format of all full papers.

The submitted full papers will be included in Conference Proceedings. Additionally, authors of outstanding papers will be invited to redirect their full papers to special issues/sections of the following three open access journals:

- *Bulletin of the Polish Academy of Sciences: Technical Sciences*
- *Computer Assisted Methods in Engineering and Science*
- *Engineering Transactions*

Submitted papers will undergo the usual peer review procedure.

Full papers should be submitted online through the conference webpage. The deadline for full paper submission is **April 30th, 2020**. Submission of the full paper is optional.

2. Paper size, margins and paper length

Use the standard A4 (210 × 297 mm) paper size. Allow 2 cm left, right, and bottom margins and a 3 cm top margin. Contributions longer than two pages or having bad presentation in terms of English language or typing quality will not be included in Conference Proceedings.

3. Font size, spacing, title, headings

Times Roman font of 11 point size should be used throughout with single spacing between lines of text. The title should be centered in all capital characters and bold face. Do not leave any additional space above the title. The title should be followed by authors' names (bold-italic) and respective affiliations (italic).

Page numbers, headers, and footers must *not* be typed.

4. Tables, figures, and equations

Tables and figures and their captions should be centered and numbered, leaving 12 points above and below the table or figure (see Table 1).

Paper size	Paper length	Font size	Line spacing
A4 (210 × 297)	2 pages	11 pt	single

Table 1: Basic format specifications.

Equations should be center aligned. Equation numbers (if necessary) should be placed in brackets at the left margin with no indentation,

$$(1) \qquad y = x^2 + \frac{\ln x}{x}.$$

Sufficient space (5 pt) should be left above and below the equation.

5. Templates

Template files for LaTeX (.tex) and Document (.doc) formats can be downloaded from the conference website, <http://eacs2020.ippt.pan.pl>.

6. References

Any references should be placed at the end of the paper and referenced in the paper through the number in square brackets. The format of a sample book [1] and journal [2] reference is given below.

Acknowledgments The authors acknowledge the financial support of A Funding Body.
